	INFORMATION

ⓘ	When opening a project with the new version (2021-22.12), projects of the directly previous version (2021-22.11)
	
	are converted and can no longer be opened with the previous version
	    [ ] Single-User
	    [ ] Multi-User
	
	are not converted and can still be opened with the previous version
	    [x] Single-User
	    [x] Multi-User
	
	COM Registration
	[ ] the COM library has been changed and should be registered again
	    (start the program as ADMIN using „E3.series.exe /register")

The bug fixes are sorted and listed by designer number(s). This enables you, for example, to easily search for bugs reported to our support office.

Designer-37599	CGM export doesn't work if the file name contains Cyrillic characters
Designer-38771	Some menu entries missing when E3.2020 workspace used
Designer-39032	Setting: "Use higher level assignment and location of the sheet/field" does not work correctly if a connector is placed on the field border on an existing connection and thus the mating connector is outside the field
Designer-39266	DGN export partially shifts texts
Designer-39332	Merging a clipboard may take a long time
Designer-39422	DBE - Model - Import DXF: Space requirement calculated incorrectly
Designer-39497	PDF export of a panel 2D View differs from visible content in E3
Designer-39513	COM: StructureNode.MoveTo does not allow to move to the desired target position inside a folder ==> parameter "before" can now contain the ID of a structure node behind which the folder should be moved
Designer-39520	Text subsidiary lines to owner are only displayed correctly after a refresh if they are displayed on a large sheet
Designer-39585	MIL-Standard: Display not correct depending on setting after deleting single or groups of pins
Designer-39587	Settings - Dimensions: Color is not permanently stored in the settings
Designer-39592	Manual selection of disconnected databases ignored without message
Designer-39593	Target entry no longer displayed after pressing "Apply" button (Text property definition hyperlink type "Internet" or "File")
Designer-39614	Graphic objects of imported DXF file (arcs with a huge radius) no longer displayed correctly when zoomed in
Designer-39617	If an assembly is placed in the E3.panel, the first component variant of the associated device is always placed automatically, even if it is not active
Designer-39629	Error message 'E - CONSISTENCY ERROR: get_attnam(): inv source

	([xxx])' at COM command 'ExportForeign' due to structure blocks
Designer-39638	COM: Graph.SetImageInfo - Not possible to move an image without parameter "filename"
Designer-39692	E3 may abort when importing a sub-circuit
Designer-39699	PDF export fails with error 'Floating point parameter 'width' has bad value 0.000'
Designer-39710	Wrong display after 'Reload settings' when changing the setting 'Highlight color for inactive variants / options'
Designer-39714	Moving of subcircuit is not possible if lines are on top of each other (due to options) and only one connect line is active (controlled by the options)
Designer-39720	Sheet attribute "Default view number" is not evaluated if symbols are turned into devices via symbol properties
Designer-39721	DBE: block components lack command 'Jump to component tree'
Designer-39722	The command 'Jump to schematic' from the view of a block from the device table does not highlight the block, but the first connector
Designer-39724	Block connector order in signal tab of device properties does not correspond to the correct order
Designer-39735	When placing a subcircuit from the database with COM displays the file name of the subcircuit instead of the part name in group properties
Designer-39750	Symbol graphic level changes depending on default level for free graphic when updating symbol with repeating graphic
Designer-39765	Consistency error 'E - CCID:001422: check_assemblies([xxx]): cmpptr of Sub-device [xxx] points invalid to [xxx]' after changing BMK texts via text properties on terminals from database assembly on panel sheet
Designer-39826	If an overbraid is assigned to an assembly, no cable can be moved into it
Designer-39828	Prevent automatic zooming when placing slots
Designer-39834	Multiuser - "Non hyperlink symbol texts" temporarily marked as Hyperlinks when placing symbols until project is closed and re-opened
Designer-39886	When searching for change marks, the change mark (cloud) crosses the sheet's border
Designer-39894	Error message 'W - chain\validate_this: 0 is invalid' when opening a specific project
Designer-40027	An empty folder with fields that cannot be merged is created in the clipboard after copying and using paste extended
